\*This return for the Diversified Shares is a 'since inception' return, and not an annualised figure.

The information in the tables above represents the historical performance of the managed investment options available within Living Super. The Total Return percentages are calculated by measuring the percentage change in the sell price for each managed investment option over the relevant time period up to one year. Returns for periods greater than one year are annualised. The performance calculation is net of investment fees and taxes that are accrued in the calculation of the unit prices, but does not include any fees and taxes that are charged directly to the member's account. When choosing an investment within Living Super, it is important to consider the likely investment return, risk and duration/term of the investment in super. Past performance is not a reliable indicator of future performance.

This information is general in nature only, and does not take into account your objectives, financial situation or needs. You should consider your personal circumstances, the appropriateness of the product and read the Product Disclosure Statement, Product Guide and Financial Services Guide before making any decision to acquire or continue to hold the product.
